About INDIAN PLASTICS INSTITUTE – IPI AND MEDICAL PLASTICS DATA SERVICE

The Indian Plastics Institute has been a leading Institute for education and technology training for the plastics industry in India for over 3 decades. The Institute has 15 active Chapters at major centers in India. It has on roll over 2750 professional members from the industry and Research and Academic Institutions. IPI Pune Chapter is one of the active chapters and has hosted many seminars and conferences.

The co-host of the Conference is "Medical Plastics Data Service", a company providing information resources for Medical Technology and Markets through Publications, Internet Portals, Exhibitions, Conferences and Market Research since last 23 years.

About Conference

Indian medical plastics market size was valued at USD 522.3 million in 2016 and is expected to reach USD 931.7 million in 2025. This growth can be attributed to the increased demand for medical devices. Demand for high-strength and multi-functional plastics from healthcare sector due to reduced weight of devices, ease of sterilization, and the ability of providing value-added performance is expected to have a positive impact. The demand for medical device packaging is expected to be driven by the rise in the utilization of in-house and advanced devices. India medical plastics market revenue, by application, 2014 - 2025 (USD Million).

Medical device packaging in India is expected to emerge as the second-largest market accounting for a share of ~11% owing to its wide usage in the medical and pharmaceutical market.

Dr. Ajay Padsalgikar, USA, a Well-Known Personality In this versatile field has agreed to be the Keynote Speaker. He is working as a Senior Principal Scientist at the Innovation Center of DSM Biomedical in Exton, Pennsylvania, USA. He has more than 30 published scientific papers and 10 patents. In 2017, he wrote a book titled 'Plastics in Medical devices for Cardiovascular Applications' that was published by Elsevier.

NATIONAL SEMINAR ON ADVANCES AND DEVELOPMENTS OF PLASTICS IN MEDICAL SECTOR

ORGANIZED BY

Expert Presentations / Panel Discussions Highlights

General Overview and Business Opportunities:

- Medical Plastics: Overview and Business Opportunities
- Technological Innovation In Medical Plastics

New Materials & Material Developments Opportunities:

- Polycarbonate
- Medical Grade Polymer Compounds
- Thermoplastics Polyurethane
- Novel Styrenic Block Copolymers and Poly-isoprene Rubber
- Innovative Adhesive Solutions
- Medical Textiles From Non-Woven (Polymers)
- EVA

Medical Plastics Processing, Design & Development, Quality , Testing, Recycling

- Medical Plastics Processing: Challenges & Opportunities
- Extrusion for Medical Tubing - Current Trends and Opportunities
- Injection Moulding for Medical Plastic Components
- Medical Plastic Components Product Design & Development
- Quality Testing of Polymers / Plastic Materials Required For Medical Applicator
- Medical Plastics Recycling For Economy & Environment

Registration Details:

- Registration will be on 'first come first served' basis.
- Fee includes Conference Material & Proceedings, Tea/Coffee & Lunch.
- Substitution may be made anytime subject to handing over of an authorization letter signed by the Registered Delegate to the organizers.
