

Industries Commissionerate,  
Government of Gujarat  
GoG-AMA Centre for International Trade

Conference on  
**Increasing Exports from Gujarat**  
**Ten Top Sectors**

Tuesday to Saturday, January 8 to 12, 2019

*"India is the only country that has the size,  
potential and structure to match that of China"* – HSBC

**Morning 10.00 am to 12.30 pm • Evening Session: 6.00 pm – 8.30 pm**

Gujarat is endowed with rich resources, an entrepreneurial class and an excellent infrastructure which can take the State's exports to new heights. The successful implementation of GST has lowered the logistics cost substantially and its teething problems will be resolved soon.

For the first time in eight years, The World Bank had forecasted global trade growth of over 3% in 2018 and the trend is likely to continue. There is good news from India too. India's shipments of goods and services are expected to reach \$500 billion in 2017-18, according to FIEO. It expects the merchandise exports to be around \$274 bn. in previous year.

Many of Gujarat's Sectors such as diamonds, chemicals and pharmaceuticals, food products, forging & casting etc. are globally competitive. Entrepreneurs now have the opportunity to find new markets and introduce new value added products to world markets.

This series of workshops will showcase the State's strengths and opportunities in ten globally competitive sectors. The aim is to provide an overview of global markets for entrepreneurs to go out and multiply Gujarat's exports.

**Inaugural Session (Tuesday, January 8, 2019 • 10.00 am)**
